

Menú de los Huricanes

MENU OF THE HURRICANES

APPETIZER (Everyone Shares)

Define HURRICANE. How many categories are there on the Safir-Simpson Hurricane Wind Scale?

SIDE DISHES (Select Two or More)

Describe the following parts of hurricanes:

-eye -eye wall -spiral rainbands -low pressure

ENTRÉE (Select One)

--Draw a picture of a hurricane as if it were taken from space looking down on it. Make sure to appropriately label all of the parts and rotations of the storm.

--Write 2-3 paragraphs describing how a hurricane works. Be sure to describe the direction of the storm's rotation and the role of high and low pressure within the storm.

--Pretend you are in a city or town when a hurricane hits. Write 2-3 paragraphs that would detail what it would be like to be in the hurricane through the various stages. Do not forget about the types of damage that would occur.

DESSERT (Optional)

Name one hurricane for each category and the year it occurred. For example, Hurricane Alice in December 1954 was a Category 1 storm, causing over \$600,000 in damage.
